To whom it may concern,

I am excited to apply for the position of Senior Electrical Engineer at Srivaru Motors, contributing my passion for electric vehicles and entrepreneurial experience to support the growth of your esteemed organization.

Having served as a Electrical Design Engineer of a startup & Chief Technical Officer in Research and Development and founding a startup in the electric vehicle industry, I understand the challenges companies face and the dedication required for success. I am committed to working diligently and exceeding expectations to contribute significantly to the growth of your organization.

With experiences in Manual & Functional testing, DVP&R, NPD, electric vehicle design & development, MATLAB, Simulink, powertrain modeling, Catia V5, Harness designing, Instrument clusters, Embedded systems, I have successfully designed innovative solutions during my previous works.

I am eager to be part of Srivaru Motors team, which is driving advancements in the automotive sector. I am confident that my dedication, adaptability, and entrepreneurial spirit make me a valuable asset in contributing to your vision.

Thank you for considering my application. I am enthusiastic about the opportunity to discuss how my skills and experience align with your company's needs.

Looking forward to the possibility of joining Srivaru Motors and working towards a greener and sustainable future together.

Sincerely,

(RAGU B)
